THE REPERTOIRE OF THE PRACTICE OF THE SECURITY COUNCIL and its supplements are published by the United Nations Secretariat as a guide to the proceedings of the Security Council from its first meeting in 1946 onwards. The Repertoire is designed to assist government officials, practitioners of international law, academics and all those interested in the work of the United Nations to follow the evolving practice of the Council and gain a better understanding of the framework within which it operates. The publication presents, as comprehensively as possible, new trends in the Council's application of the Charter of the United Nations and its own provisional rules of procedure. The Repertoire is the only such official record and is based solely on the deliberations of the Council, its decisions and other official documentation before the Council.

The current Supplement, sixteenth in the series of Supplements to the Repertoire, covers the years 2008 and 2009. As the Security Council continued to address various challenges with regard to international peace and security during the period, its application of the Charter further evolved. While it focused on conflict prevention and the role of regional organizations, particularly in Africa, it also addressed securing peace in post-conflict situations. The Council raised cross-cutting issues with increasing frequency, such as the issue of children and armed conflict, and revised a set of indicators for tracking implementation of its resolution 1325 on women and peace and security.
