The Repertoire of the Practice of the Security Council and its supplements are published by the United Nations Secretariat as a guide to the proceedings of the Security Council from its first meeting in 1946 onwards. The *Repertoire* is designed to assist government officials, practitioners of international law, academics and all those interested in the work of the United Nations to follow the evolving practice of the Council and gain a better understanding of the framework within which it operates. The publication presents, as comprehensively as possible, new trends in the Council's application of the Charter of the United Nations and its own provisional rules of procedure. The *Repertoire* is the only such official record and is based solely on the deliberations of the Council, its decisions and other official documentation before the Council.

The current Supplement, seventeenth in the series of Supplements to the *Repertoire*, covers the years 2010 and 2011. As the Security Council continued to address various challenges with regard to its responsibility to maintain international peace and security during the period, its application of the Charter further evolved. Actively seized of a wide range of conflicts particularly in Africa and the Middle East, the Council continued to grapple with the question of protecting civilians in a manner consistent with the Charter. On 26 October 2010, the Council celebrated the tenth anniversary of its adoption of resolution 1325 (2000) on women and peace and security.
